Upon investigation he found he could not hope to make an investment that would give better returns, and a bargain was only the work of a few minutes. Mayor Nicholson raised his figure and got it, and the property passed out of his hands. He is now looking for a good site in order to build again. Ald. Campbell has been offered \$5,000 for his lot on the corner of First avenue and Galacre street. He has not 30,000 for his lot on the corner of First avenue and Galacre street. He has not as yet decided to close with the offer, but the figure marks an advance on anything previously named; and all the indications point to a quick market and a general rise in real estate values.

PROBING SECRET OF PARIS CRIME

WIDOW IS SUSPECTED IN WHIPCORD MYSTERY

No Clue to Perpetrators of Double Murder in Artist's Home.

Paris, June 3.—Although the police are scouring the criminal quarters of Paris, cross examining artists models Paris, cross examining artists' models and running down every clue, no arrests have yet been made in the case of Artist Steinhell, who with his mother-in-law, Madame Japy, was murdered in their house on Sunday morning. The Lapers of Paris are now almost unanimous in declaring that the real secret of the tragedy remains to be elucidated. Much attention has been directed to the widow of M. Steinhell, who is a handsome, popular and attractive blonde, and who-was in the house at the time of the murder. Especial emphrisis is laid upon the fact that she sent away the cook, a large and strong woman, the day before the crime and declined the offer of a watchdog made by some neighbors.

declined the offer of a watchdog made by some neighbors.

Attention is called also to the circumstances that the only traces of ink from the overturned inkwell were found upon the bed upon which Madame Eteinheil was discovered bound and gagged. It is alleged also that the beds upon which Steinheil and his motheralism were surround. upon which Steinnell and his induction-in-law were supposed to have been sleeping were only rumpled and the in-dications all are that Mrs. Japy's body was placed on the bed after she had been strangled.

SIX YACHTS START IN RACE TO BERMUDA

**Excellent Weather Conditions** at Marblehead When Boats Get Away.

Marblehead, Mass., June 3.-The veather conditions for the start of the annual Marblehead to Bermuda yacht race to-day were considered excellent by the crews of the six yachts which will make the cruise under the joint auspices of the Corinthian Yacht Club, of Marblehead, and the Royal Bermuda Yacht Club. The six contesting yachts, the Esperanza, the Dervish, and Zurah, of class B, and the Marchioness, Vennoa and Edith Anna, of class C, had hoisted mainsails and lashed their small boats securely early in the morning, and after breakfast anchors were hove short and the yachts left the harbor for Marblehead rock, between which place and the committee tug the starting line had been iald out. The arrangements for the start provided for the regatta committee's tug to anchor a short distance from Marblehead rock, thus laying out an imaginary line over which the racing craft could be sent away on the long course. From Marblehead rock the course lay about south, southeast, and it was expected that the yachts would be clear of Cape Cod before nightfall.

U. S. PRESIDENT HAS NARROW ESCAPE

Roosevelt Thrown From Back of Young Horse Into Creek.

Washington, D. C., June 3.—President Roosevelt late yesterday afternoon had an exceedingly narrow escape from a serious accident while horseback riding in Rock Creek Park.

The 'Tresident' westerlikes New York. horseback riding in Rock Creek Park.

The 'president was riding a new horse, a young animal. His party rode down through a cut in a bank, forded a creek and were ascending the bank on the other side. The president's horse reared on reaching the top of the bank, fell over backwards into the creek with the president. Feeling that he was going backwards, Mr. Roosevelt leaped from the saddle, and as velt leaped from the saddle, and as luck would have it, fell into the creek close beside the horse, which landed on its back. The horse was captured at once, the president remounted and rode for an hour and a half before returning to the White House. The fall from the horse's back to the stream was a distance of not more than ten feet. Neither the president nor the horse received the slightest injury. Mr. Roosevelt was dressed in khaki, and the fact that he got thoroughly wet did not become apparent to those who saw him after the accident. velt leaped from the saddle, and as

# DENIES WHAT COLONIST SAID

**NEITHER THOUGHTS NOR WORDS WERE PUBLISHED'** 

What Major Hodgins Tells Before Commons Committee at Ottawa.

(Special to the Times).

Ottawa, June 3.—A special Commons commission on the Hodgins charges resumed its sittings this morning. Major Hodgins was examined by Chas. Murphy, counsel for the commission. He said he adhered to the statements he had made in a letter to the Victoria Colonist embodying his original charges. He dissented, however, from some of the statements attributed to him in an interview subsequently pub-

Major Hodgins had said the Interview in question was quite correct.

The correspondence between the Major and Commissioner Young was read by counsel, in which it was shown that on June 1st, 1907, the Major had cailed the commissioner's attention to rumors that over-classification was taking place at some points and suggesting his own appointment as a sort of inspector general for the whole line. Commissioner Young replied declaring the commissioner Young replied declaring the commission had heard of no specific instances of over-classification and that it had been decided to appoint the most capable man available to assist in work of inspection. Major Hodgins said the able man available to assist in work of inspection. Major Hodgins said the only reason he had for saying that Grant was appointed to supercede him in looking after the classification was based on Grant himself. The commission had not notified him that his non-inspection of work in the district was to be in any way limited.

The major said his charges in that respect were based on hearsay.

FOREIGN COMPETITION IN COTTON TRADE

Satisfactory Results of International Congress Which Met at Paris.

Paris, June 3.—The International Cotton Congress which has been in session here for the past two days finished its labors to-day and adjourned to meet in Italy in 1909, either at Milan or Rome.

Among the most important resolutions adopted by the congress was one inviting all confederation associations in the various countries interested in cotton to join in a harmonious curtailment during periods of distress arising from over or under production, and inviting the European government to study and advance the government to study and advance the extension of the colonial production of cotton. The American delegates thought that the results of the congress will be generally helpful and the foreign delegates realize that there is little hope of breaking the American monopoly. Nevertheless they say the congress marks the advent of systematic foreign opposition and the belief is that the best method to meet this foreign antagonism is for extension of the colonial production to meet this foreign antagonism is for America to exercise greater care in the preparation of its cotton and to ship it in better condition.

Hon. F. Oliver Gives Assurances to Chiefs in Interview at Ottawa.

(Special to the Times).

British Columbia Indian chiefs arrived here last night. They interviewed Hon. F. Oliver and Mr. Pedley this afternoon to present their grievances. They were assured the government here would protect their timber rights on the reservation. On a question of being given greater freedom for fishing and hunting by the relaxation of the present regulations, they were told that the issue as to the provincial or federal control of Indian lands in the province of British Columbia would be decided by the privy council. The government would carefully consider all their requests.

sided. The secretary's monthly report was as follows:

Madam President and Ladles: The past month has been of notable importance in the annals of this society in that, after some year's consideration. Hospital Saturday, as well as Hospital Sunday, has now been, most happity inaugurated. Though this custom prevalls in almost all large and enlightened cities in the old world, and has received everywhere the sanction of those women, exalted allke by their position and their character, whose example we do well to follow, it had still to become "acclimatized" to Victoria. Saturday, May 23rd, the eve-of Empire day, proved, without a shadow of a doubt, that we still are children of that great Mother who fulfilled in her courage, in her charity and in her perfect womanhood the long dynasty of England's true greatness. The committee in charge of Hospital day desires to place on record their sense of the exceptional courtesy and kindness received during the day personally. It would take too long to register the many kind words and expressions of goodwill which fell to the share of those taking active part-in what proved to be, though a tiring, a most happy day, but they were cheered thoroughout by a multitude of kindly friends, and to final results proved that their discuss which is the best Derby winner, and since then Lord Lyon, Ormonde, Common, Isinglass, Galitee More, Flying Fox, Diamond Jubliee, and Rack Sand have added their names to the since then Lord Lyon, Ormonde, Common, Isinglass, Galitee More, Flying Fox, Diamond Jubliee, and Rack Sand have added their names to the discuss which is the best Derby winner, and since then Lord Lyon, Ormonde, Common, Isinglass, Galitee More, Flying Fox, Diamond Jubliee, and Rack Sand have added their names to the discuss which is the best Derby winner, and since then Lord Lyon, Ormonde, Common, Isinglass, Galitee More, Flying Fox, Diamond Jubliee, and Rack Sand have added their names to the discuss which is the best Derby winner, and since the Lord Lyon, Ormonde, Common, Isingla many kind words and expressions of goodwill which fell to the share of those taking active part-in what proved to be, though a tiring, a most happy day, but they were cheered thorough-out by a mulititude of kindly friends, aid to final results proved that their undertaking was approved by a largy public majority. ## **DERBY DAY**

The Story of the World's Most

The greatest race in the world, named in honor of the Earl of Derby, was first run in Thursday, May 4th, 1780, when Sir Charles Bunbury's chestnut, Di-omed, the favorite, won. Thirty-six horses subscribed, and there were nine

runners.

The conditions of the race varied very greatly from those of the present day. Diomed's Derby was worth 1.015 guineas, the race was run over a mile, and the weight he carried was 8 stone. The guaranteed value of the Derby is now f6,500, coits carry 9 stone, filles 5 pounds less, and the distance is half a mile longer. It costs an owner £50 actually to run a horse in the race. The second horse receives £400, and the third £200. The race is confined to three-year-olds.

Rock Sand, who won the race five years ago, was recently sold to an American sportsman for £25,000, which is a striking contrast to the small sum paid for Diomed, who was transferred for f1,000.

paid for Diomed, who was transferred for i1,000.

There have been two dead-heats in the Derby, but only in one of them did the owners agree to divide the honor and the stakes. That was in 1884, when St. Gatten and Harvester raced home, locked together in a desperate struggle, and were inseparable by the judge. They, of course, carried the same weight, 9st., so they were presumably identical horses in point of merit. As proving that this was not so it may be mentioned that St. Gatten subsequently enhanced his fame as a racehorse tremendously, and was sold for fi4,000 to a foreign breeder. Harvester, the other divider of this memorable Derby, singularly enough only fetched 330 guineas, a remarkable disparity in prices. In 1823 the Duke of Rutland's Coadiand ran a dead-heat with The Colonel, but beat the latter in the runoff.

off.

A Derby winner that fetched the most money ever paid for any horse in the world was Flying Fox, who was sold for £39,375 by public auction at the dispersay of the late Duke of Westminster's stud. M. E. Blanc, a wealthy French sportsman, outstayed all bldders and secured one of the greatest bargains ever known in the annals of the turf. Although he only bought the horse a few years ago he has already

times over.

H. Chaplin had no idea that he was purchasing a richly auriferous mine that panned out worth something like i250, 60 when he gave 1,000 guineas for Herrack, the sens-xtional winner of 1867. Several very cheap horses have won the Derby, notably Lord Lowther's Spaniel, acquired for fi50; Sir J. Hawley's Teddington, bought for £250; Lord Zetland's famous horse Voltigeur only cost his owner £350; while Spearmint was secured at public auction for 300 guineas. Another Derby celebrity was the cured at public auction for 300 guineas. Another Derby celebrity was the mighty Ormonde—a son of Bend Or—who won the Derby twenty-two years ago. He was never beaten on a race-course. The Duke of Westminster sold him for £12,000. He was subsequently resold to a Californian millionaire for £31,250. Ormonde died a few years ago. In the grounds of Lord Rosebery's country house at Epsom is an ornamental, iron-railed grave covered with a stone slab bearing an inscription. Underneath this lie the remains of the famous Amato, who won the Derby on the only occasion of his racing in public.

The biggest price ever given for a horse that has not won the Derby is the 30,000 guineas paid for Cyllene by W. Bass, of brewing fame. This costly thoroughbred did not run in the Derby, for the simple reason that he was not entered, or he could not have lost it. A very moderate horse, a 100 to 1 chance, Jeddah, won that year.

For the wonderful mare Sceptre this For the wonderful mare Sceptre this enthusiastic sportsman gave £25,000 when she was four years old. Fifty-six thousand five hundred pounds is doubtless an enormous sum to pay for two non-Derby winners, but the investment may turn out to be as profitable as the purchase of Flying Fox was to M. E. Planc.

purchase of Flying Fox was to M. E. Elanc.

There is hardly any betting on the race nowadays in comparison with the heavy gambling in the years gone by.

Mr. Merry won f100,000 over Thorman-by's victory, Count de Lagrange netted £70,000 over Gladlateur's success, and f70,000 over Gladiateur's success, and Mr. Chaplin, it was reported, won close on £140,000 when Hermit won. The oweer of the second and third in Blink Bonny's Derby always vowed that their horses had won. Black Tommy, the second, who was only beaten by a neck after a desperate race, started at the long odds of 200 to 1 arginst. His the long odds of 200 to 1 against. His owner stood to win £50,000 over his success. So little was Black Tommy's chance esteemed that one bold book-

It was not until 1846 that the Derby was timed, when Pyrrhus the First, who belonged to the prize-fighting M. P., John Gully, completed the course in 2 min. 55 sec. Three years later the celebrated Flying Dutchman actually took three minutes, and in 1856 his son, Ellington, was 4 sec. longer on his way to the winning-post, the slowest time on record. In 1905 Lord Rosebery's Cicero occupied 2 min. 39 3-5 sec., which beat all previous records, but in 1906 beat all previous records. beat all previous records, but in 1906 Spearmint demolished this by negotiat-ing the course in 2 min. 36 2-5 sec. 1t will thus be seen that Spearmint cov-ered about 17 yards per second through-out the entire journey.

These transfers occurred in the estimate of work done by the contractors in the month of July, 1907, and were reported by Major Hodgins to the chief engineer by letter dated August 6th, 1907. There is no objection taken to them in this letter and no disapproval of them was expressed therebut the estimate containing them was approved by Major Hodgins, such From the memo addressed to the Secretary of the Commission, dated August 24th, from the chairman, Hoh. HORSES ARE COMING

FOR BIG RACE MEET

Arrangements About Complete
for Judges, Starters and
Other Officials.

The arrangements for the big race
meet scheduled for next week are being perfected, and those who are in a position to judge predict that, not only will the racing be of the very highest class, but that there will be hundreds of visitors here from all the surrounding country. Already there are twenty-two horses out at the track, four of which arrived from Vancouver last night on the Royal. There will be new arrivals every day until the stables at the agricultural grounds are all filled. The accommodation there will be taxed to the utmost, and in all probability stables outside the grounds will have to be secured to provide for the large number of horses that will be here.

The team up there. While there is some your input to loss of a good third base, the place will be filled all right for Harry Wille has one or two spare men in the team. The men here are in earnest in winning for the honor of the city, but nobody knows what outsiders may do at the critical moment.

It is becoming a fashionable thing to take an evening stroll as far as the Royal Athletic Park to watch the boys practising the national game. A large number of people go there every night, and as an attraction it is vieing with the Gorge Park.

Matsuda must wrestle or leave Victoria. He is a good man and it should be worth while for some of the local mat artists to prove their superiority over the Oriental. He is fraining at the Victoria West Athletic Association.

The Seattle apologists say that all their cricket eleven needs is practice. They certainly need a good deal of that before they can expect to beat an ex-county team like the Victorias. Where is Seattle? said a man in to the utmost, and in all probability stables outside the grounds will have to be secured to provide for the large number of horses that will be here.

to be secured to provide for the large number of horses that will be here. Dick Dwyer, a well known starter from the south, has been asked to officiate at the gates here. If he can be ecured Victorians will be saved much of that disappointment which often follows from poor starting, for Dwyer is generally known as the best starter on the continent.

J. A. Fullerton and Robert Leighton, of Vancouver, have been asked to act as judges, and other arrangements for the details of the meet are just about all complete.

Among the novelties of the race will be the institution of a ladies' day, when members of the fair sex will be admitted to the grounds free of charge. This will be much appreciated by the ladies of Victoria, Season tickets are being sold by members of the committee in charge, which will admit holders to shirt of the races free of charge.

M. Matsuda, the noted Japanese wrestler, is looking for a match. He is anxious to meet Bruce Ashman, and dropped into the office last evening to say that he was ready to put up a \$250 side bet for the best two out of three. He suggests that he would be ready in three or four weeks' time.

#### Crews From H. M. S. Proserpine Bombarded While Wading Ashore.

Bluejackets of H. M. S. Proserpine had an exciting fight on the beach at Jask, on the Persian Gulf, on April 19th with a gang of gun-runners, des

as Afghans. Letters received at Portsmouth state that the Proserpine had captured a dhow containing 1,650 rifles and about a million rounds of ammunition. The dhow's crew were armed, but they were evidently surprised and overawed. Next morning the cruiser Measure the facety. morning the cruiser Hyacinh, flagship of the East India squadron, joined the Proserpine and remained in consequence of Afghan threats to "wipe out" the British reservation at Jask.

with a lead of five lengths. The California crew while willing enough, was worn out with the pace although they finished with a stroke of 40. Between the mile and the mile and a half they dropped to 36 which was their lowest stroke, the balance of the way both before and after being 37 and 38, until the final minute when they resumed their initial spurt of 40.

The crews were, Washington—Capt. Kirby, stroke; O'Brien, 7; Beck, 6; Karr, 5; Willis, 4; Lovejo, 3; O'Neal, 2; Lowry, bow; Everett Thompson, coxswain.

Marines armed with Maxims were landed. As several suspicious craft were sighted, a steamboat couter and whale were sighted, a steamboat couter and whaler were sighted, a steamboat couter and whaler were sighted, a steamboat couter and whaler were sighted, as steamboat couter and whaler were sent, under Lieut. Baillie-Hamilton, to examine them. Two of the boats grounded in shallow water, and as the crews were wading ashore fire was opened on them from the beats. From the shelter of sand hills and palm trees came a hall of bullets. The men were ordered to return to the boats, and on the way back one of them was hit, but was dragged to the waler.

Another man was hit in the back, and on April 21st, the day the letter was dispatched, his case was deemed hopeless.

The Proserpine remained at Jask after the fight and landed all her marines, together with some from the Hyacinth, which afterwards left for Bushire.

BOXING MATCHES DENOUNCED. Member of Paris Municipal Council Takes Exception to Sport.

M. Henry Turot, a member of the Paris municipal council, has written to the prefect of police, asking for the immediate suppression of the English boxing matches now being held in Paris. In his letter he says that it is disgraceful that such barbarous and repugnant sport should be acclimatized in Paris.

"The sight of two men, bruising each other's bodies and faces," he proceeds. "can please only newfortic men and women, ever craving after some new, unhealthy sensation." If the prefect of police does not act, M. Turot says that he will raise a debate on the subject at the next session of the Paris municipal council.

OLYMPIC TRIALS DOG QUESTION IS

IN ONTARIO

## -Other Performances Are Mediocre.

At the Rosedale grounds, Toronto, on Monday last, the attendance at the Olympe trials was small.

The first race, 100 metres flat, was won by Robert Kerr, of the West End Y. M. C. A., in 11 seconds, with Louis J. Sebert, his mate, second, and William S. White, of the Hamilton Y. M.

J. Sebert, his mate, second, and William S. White of the Hamilton Y. M. C. A. third. Other starters, Joseph C. White and H. Kyle, both of the West End, in the first fifty yards were close, but thereafter Kerr had the race well in hand.

The second event, 800. metres flat, was won by Irving Parks in 1.57 4-5, with Harry Smith, second, and Arreld Knox, third. The other starters Stephen Hindle and Leonard Dobson, did not finish. Smith fought it out pretty well until the last couple of hundred yards, when superior condition and speed on the part of Parkes told the tale.

Next on the programme came the 3.500 metres walk (3.825) yards, with three entries, George Goulding. E. P. Macdonald and J. C. Skene. Goulding got off to a good start and continued to increase his lead on Macdonald, who was palpably outclassed. Gouding's pace was such as to tire the others. Macdonald was never in it, and Skene was Ralf a lap benind at the close. The time was 15 minutes 31 3-5 seconds. The standing broad jump went to George H. Barber, 10 feet 2 1-2 inches. Second was Alex. Cameron, with 10 feet 1-2 inch, and third, Harry Davis, 9 feet flat. Second was Alex. Cameron, with 10 feet 1-2 inch, and third, Harry Davis,

9 feet flat.

Experts present consider Barber's jump only fairly good, the world's record being 1 foot 2.7-8 inches further. The 200 metres flat (2.1-8) 6 yards, was run in two heats. The first heat was won by W. R. Worthignton, West End: second W. S. White Hamilton;

End; second, W. S. White, Hamilton; and J. M. C. Murray, Irish-Canadians, third. Time, 23 seconds. The second heat went to "Bobby" Kerr, Hamilton, in 22 4-5 seconds, with J. L. Sebert second and J. C. White third.

There were only two entries in the standing high jump. Geo. H. Barber. Central Y.M.C.A., was first. He jumped 4 feet 8 1-2 inches. Alex. Cameron, also of the Central, was the other competitor.

The 110 metres hurdle (120 yards) went to Geo. H. Barber, Central Y. M.

The 110 metres hurdle (120 yards) went to Geo. H. Barber, Central Y. M. C. A., in 16 4-5 seconds, with Henry Davis, West End, second.

The 260 metres final: First, Robert Kerr; second, Louis Sebert; third, W. R. Worthington. Time. 21 4-5 secs. Sebert pressed the winner harder than had been expected. That Kerr ran a magnificnt race is shown by the fact that his time was only 1-5 of a second lower than the world's record.

A great deal of interest centred in throwing the hammer contest, in which "Con" Walsh, of Woodstock, the Canadian champion, figured. His best throw was 155 feet 9 1-2 inches, as against 139 feet 7 3-4 inches for E. B. Archibald, West End; and 106 feet 6 inches for John Bowie, Irish-Canadian. Afterwards Con Walsh gave an exhibition throw, in which he put the hammer 165 feet 1 1-2 inches. The Olympic record is 168 feet 1 inch.

Redding, British United; Fred. Meadows, West End. Redding and Petch

Redding followed him to the club house on-completion of the second mile, neck from the outside, first one leading, then the other. Sellen was forced by a temporary cramp to stop, but he pluckily continued. Wagner was lapped, and fell out. Galbraith lost his shoe when he had a lead of about thirty yards, and was forced to take to the grass on the outside of the track. Of course, this was a handicap that put him out of the race.

The finish was in this order: First, Fred Meadows, West End; second, W.

Waish, Woodstock, 36 feet 2 3-4 inches. In the pole jump, E. B. Archibald, of the West End Y. M. C. A., created a new world's record; formerly it was in feet 6 inches, made by the same gentleman, and that is also the height of

tleman, and that is also the height of the Olympic record created at St. Louis in 1904. Archibald on this occasion cleared the bar at 11 feet 101-4 inches. In the running broad jump, the re-sults were: First, C. D. Bricker, West End, 22 feet \$ 3-4 inches; second, Wil-ilam R. Worthington, West End, 22 feet; third, G. H. #### TESTS THE NEW RIFLE.

In the presence of Mr. McArthur, of Work Point barracks, Col. Sergt. Major Caven tested the new model Ross rifle yesterday, along with Staff Sergeant Fred Richardson. Sergt. Major Caven made a score of 34 at 260 yards, missing the bull's eye with the last shot. This shot he called as the sling slipped as he pulled the trigger. At 500 he made 30, which he admits he should have bettered. He made 33 at 600 yards, giving him a total of 97 for the three ranges. Staff Sergt, Richardson made 94 at the same ranges.

A military man discussing the new rifle yesterday, said that the scores that Capt. Sciater, Major Duff Stuart, Sergt. Major Macdougall, Capt. Harris, Col. Sergeant Caven and Staff Sergt. Richardson have made with the new Ross rifle the first time of handling went to show that the confidence placed in the rifle in high circles is well advised. Capt. J. C. Sciater, of Vancouver, nas ordered one of these rifles after using Staff Sergt. Richardson's. Capt. J. C. Sciater is without doubt one of the best shots, if not the best in Vancouver at the present time. He will take it to Bisley with him.

TO BE DISCUSSED

## New Pole Jump Record is Made Kennel Club Will Consider the Subject To-morrow

The Victoria Kennel Club proposes to take a hand in the discussion on the solution of the dog question. For this purpose a meeting of the club has been

called for to-morrow night.

So far as can be gathered the club made by the pound keeper, They re-alize at any rate that it is necessary to

alize at any rate that it is necessary to take some steps to abate the nuisance of the large number of canines which fairly infest the streets. They are quite agreeable that the license should be raised, and that further restrictions should be imposed.

There is also a feeling abroad that it is quite possible to collect dog taxes without the crude but amusing spectacle of the pound keeper around with a net, like a butterfly man chasing specimens. If there were a severe penalty on anyone trying to keep a dog without paying the license and one or two prosecutions were successfully carried ecutions were successfully carried through, there would be no more trou-ble and the city exchequer would ben-cut to a very large extent.

#### **Board Will Take Action Against** Those Found Exceeding the Limit.

The speeding of automobiles in Beaon Hill park was one of the principal matters that engaged the attention of the parks board last evening, and as a result notices will be put in the park varning drivers that the rate of speed allowed in the park, which includes Dailas road from the outer wharf to the Ross Bay cemetery, is eight miles an hour and any one found exceeding this

rate after that will be prosecuted.

The matter was brought to the attention of the board by Mr. Arbuthnot, the chairman, who inquired what was the speed allowed in the park. He was told by Mr. Wilkerson that it was eight

told by Mr. Wijkerson that it was eight-miles an hour.

Ald. Henderson remarked that he fre-quently saw drivers exceeding this rate.

On Sunday, for example, he had seen one that was going at a rate well over

one that was going at a rate well over twenty miles an hour.

Mr. Arbuthnot—Some of the most prominent people of the city, who should know better and set an example to others, go through the park at a speed that is simply dangerous.

It was decided that notices be put us in the park warning drivers that the rate of speed allowed in the park is eight miles. Any who offends against the regulations after that will be pros-

eight mies. Any who one one against the regulations after that will be prosecuted. In connection with the matter it was pointed out that Beacon Hill park included not only the park proper but also the Dallas road from the outer wharf to Ross Bay cemetery and this

wharf to Ross Bay cemetery and this speed limit applies there as well as in other portions of the park.

A letter from Sir Robert Borwick was read offering the board a cougar cub. The offer was accepted with thanks and the cub will be duly installed at the park as soon as it is old enough to be removed from its mate, which is to be placed in Stanley Park, Vancouver.

F. W. Fiske & Co. wrote enclosing a catalogue of their ornamental fountains and other park fixtures. The communication was filed.

munication was filed.

Ald. W. F. Fullerton wrote asking for the use of Beacon Hill park for the holding of the annual reunion of the members of the Ancient Order of Formembers of the Ancient Order of For-esters of British Columbia, which takes place on August 15th. There will be a programme of sports, etc., and a gen-eral day of merry-making, to which the public will be invited. The request was granted.

A bill from Levavasseur et Fils of Paris for \$135.55 for shrubs was laid over for the present. An offer from J. R. Anderson, deputy

minister of agriculture, of a quantity of gorse for Beacon Hill park was ac-

minister of agriculture, of a quantity of gorse for Beacon Hill park was accepted with thanks.

Ald. Henderson, who at the last meeting of the board was appointed a committee to purchase a horse for the parks purposes, reported that the city water department had one that appeared to suit very well for the purpose. It is now being tried out by Mr. England, park superintendent, and if it suits the board will pay the water department \$100 for it. Mr. Henderson has also been in negotiations with Mr. Stewart for a horse which has also been given a trial. If the board does not make a deal with Mr. Stewart it will/pay him \$1 a day for the time the city has used the animal. Arrangements are also under way for the purchase of a cart and harness.

Mr. Wilkerson again brought up the matter of the accumulating of rubbish, such as paper, on the Belleville street enbankment and on the grass plot at the north side of the causeway. He suggested putting up netices warning coole against throwing refuse in these

enbankment and on the grass plot at the north side of the causeway. He suggested putting up notices warning people against throwing refuse in these places. He also suggested putting cans at these places into which people could throw such refuse.

Ald. Henderson opposed the idea of cans, which, he said, would look as bad as the rubbish. He pointed out that there was quite an eddy at the northern end of the causeway which brought rubbish from all the adjoining districts, including Government and Wharf streets, to this spot.

Mr. Arbuthnot asked why it was that refuse of this kind was swept out of some buildings onto the streets, and Ald. Henderson repiled that it was against the city by-laws to do so.

This ended the discussion on the matter and the parks board adjourned after one of the briefest meetings in its history, having been in session less than 50 minutes.

A two-lift gashelder for 2,000,000 cubic feet which is being erected at Redheugh (Neweastle) will be the largest spiraligided helder yet built.

**OPPOSITION DEPRIVE** SERVANTS OF SALARIES

Employees of the Dominion **Government Are Victims of** Partisan Tactics.

His Majesty's Loyal opposition in the Dominion parliament is daily becoming more unpopular in the city of Victoria. For two months no salary has been forthcoming for the government employees and all the result of the foolish tactics of the opposition in preventing

ployees and all the result of the foolish tactics of the opposition in preventing the passing of supply. The unpopularity is not confined to the employees of the government but almost ail the city is suffering as a result. The men have no money with which to pay their bilis. This inconveniences the grocer, the baker, the tailor, and, in fact, almost every retail business.

What the people who are put to all this inconvenience want to know is, why the opposition should single them out as the objects of their attack. There are so many other means of blocking the government without stopping the salaries of the hard working part of the community. Of the justice or of the community. Of the justice or of the community. Of the justice or of the government's case they are not so much concerned although, like all right thinking people, they must see that the opposition has not a leg to stand on when it comes to a matter of justice. If, however, they think they have a grievance, as they seem to do at present, why should the employees be sacrificed in order to try to enforce their side of the dispute.

**BUILDING BUNKERS** FOR ORE IN NORTH

White Horse is Centre of Mining Activity at Present.

Pass & Yukon Railway Company is now engaged on the construction of ore bunkers of one thousand tons each. These are being built in preparation for the mineral traffic, developing along the line of railway from White Horse, Dugdale, Conrad, etc. At White Horse there are two hundred men employed Dugdale, Conrad, etc. At White Horse there are two hundred men employed on construction work on the new mineral branch railway to the White Horse copper belt, which is twelve miles distant. The construction of this work is going ahead rapidly, and the line is already completed as far as the Vallere mine and its adjoining claims. It is expected that the line will reach to the Arctic Chief, the Grafter and the Best Chance early in July, and that by the end of August or the beginning of September it is estimated the line will complete its main branch, and also its connections with the Puebla, Copper King, Karline, Tamaroe, War Eagle, Anaconda and Rabbit's Foot mines, Business is reported to be generally quiet all along the line, but there is noticeable a sound undecurrent of established business which keeps things going. White Horse has news of important discoveries of rich copper ore of wide formation in the Hootchi territory. A well equipped prospecting expedition recently left White Horse to locate claims and to do assessment work there,

## STRAWBERRIES ARE PLENTIFUL

IMMENSE NUMBER OF CRATES NEEDED

The Season WII Be a Record One in This Vicinity.

Local strawberries are now on the market. The first day they appeared they retailed at 50 cents a pound. The next they were down to 35 cents, and now they are going at considerably less than that. The crop has been very slow in maturing. The natural result of this will be that the fruit will be very large and the crop correspondingly heavy. If all goes well the growers will make a record clean-up. Last year they sold about three hundred dollars worth of fruit to the acre, but this season they will hardly stop at double that amount.

son they will narely stop at usual amount.

Twenty thousand crates have already been sent out into the country to the growers, each crate containing twenty-four boxes. When these are filled, four hundred and eighty thousand pounds will have been marketed, but it is estimated that this will scarcely be two-thirds of the whole output just around this city, but that at least ten thousand more crates will be required.

this city, but that at least ten thousand-more crates will be required.

It is needless to say that the city of Victoria can hardly consume that many berries in one season, besides the fruit that is grown in almost every garden. Large quantities of them will be ship-ned to the prairies where they will be distributed through the agency of the British Columbia Fruit and Produce Exchange.

Exchange.

The figures given above represent the berries being handled by the local Fruit Growers' Association. As there are one or two growers who are outside of this organization, the addition of what they grow to the total will make a very large output for a comparatively small discontinuous content for a comparative content for a cont grow to the total will make a very large output for a comparatively small district such as that represented. At the same time it will give an idea of the magnitude of the business, and of the amount of money which will be put into circulation as a result of the growth of the industry.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, June 3.-5 a. m.—With the exception of showers yesterday on the Lower Mainland and in Western Oregon and Washington, the weather has been fair and moderately warm west of the Rockles; the low area over the Rocky mountain regions is now central in Arizona, and is slowly moving to the southeast, and at Memphis there has been a heavy rainfall of 1.54 inches. In the prairie provinces the weather is warm, with showers at various points, chiefly in Alberta.

J. P. Mann, in opening the question of damages, said that Bauthier had been willing to continue him in his employment. There was a period of slackness combined with an over supply of men following the dismissal which had caused the plaintiff to remain out of employment right up to the present time. He proposed to call one or two witnesses to prove this. Roberts Dinadale, contractor, told of Graham applying to him for work.

Judge Lampman Fixes Liabillayer's Case.

The question of damages against the Bricklayers' union was this morning settled by Judge Lampman in the county court, awarding the sum of \$250 to Lawrence Grahame for wrong done by securing his dismissal from a contractor named Bauthler.

Graham applying to him for work.

Witness said there was at that time a large influx of mechanics from other places so that the supply exceeded the junction was dropped for the present, demand.

Walter D'Aulnay, contractor, said there was considerable work going on during last autumn, but the supply of masons exceeded the demand so that several bricklayers were doing laborer's work for him. This state of affairs still continued. It was caused by a large influx from outside points.

Thos. H. Matthews corroborated the evidence of the others.

Lawrence Graham told of being willing to remain with Mr. Bauthier. After being discharged he tried his best to get employment but without success.

Mr. Robertson, continuing, claimed that the union should not be liable for damages after the writ was issued. He was offered according to the evidence to be allowed any kind of test in order to get into the union,

His Honor—That makes no difference in fixing the damages. The man claims the right to work without joining the union and he is entitled to be allowed to do it.

Mr. Robertson pointed out that the plaintiff was a union man himself, and it was simply because of a change of the kind of work demanded of him that the trouble arose.

Judge Lampman referred to one case where filo was given as damages. He would set the damages in the present case at \$250.

Mr. Mann asked that an injunction be granted as the same conditions existed in regard to the employment of the plaintiff as did months ago.

#### Celebration of a Splendid Character Held in the North.

Victoria Day at White Horse, which was celebrated on the 23rd of last month in a most enthusiastic manner was a tremendous success and in fact it came as a revelation to the many visitors who were in town at the time," said a gentleman who returned from the north yesterday, when talking of the matter this morning. The decor-ations were, he says, of a splendid character and carried out on a large character and carried out on a large scale. The streets were all gaily decor-aged with bunting and signals of wel-come, while the stores and buildings lacked nothing by way of comparison. Along the streets there had overnight been planted young saplings at close intervals. Both sides of all streets at the water course were green with these decorations and the town formd a most decorations and the town forms a most attractive sight. Visitors who were present in White Horse at the time were greatly surprised at the display made by the residents and were en-thusiastic in their praise of the whole

For the base-ball games there were three teams en-Juneau and Skagway. For the base-ball games there were three teams en-tered comprised of the clubs above mentioned and a team from Ketchikan. The latter, however, was not up to the standard required and soon fell victims to the pitchers from Skagway and Juneau. The series was finally won by Skagway after some good ball had been Juneau. The series was finally won by Skagway after some good ball had been witnessed by the visitors. The sports provided splendid amusement for the visitors who flocked in from all parts to take part in or to be present at the celebrations. The horse races were a source of much attraction and were carried off in good style. At night there was a pyrotechnic display, and a dance at the Athletic club given by the White Horse bachelors brought the events to a conclusion.

## THEY ARE ABUSED

#### June 5 Speed of Ten Miles is Too Slow They Say for Efficient Control.

The auto owners in the city have a grievance which they are seriously considering. The crusade against them for exceeding the speed allowed by the provincial act and the wholesale fining of them has led them to look more fully into the question of speed than has hitherto been the case.

The opinion expressed by most of the owners is that 10 miles an hour is altogether too slow a rate for the city. Private owners say that at 10 miles an hour there is more danger than at 15 miles or perhaps 20 miles an hour. At the ten-mile pace they point out the machine is not under as complete control as at the higher speed. To keep down to a low rate the driver's attention is occupied with too many details, with the result that he is not ready to meet an emergency.

Then it is urged by these drivers that on the ascents in the city that rate is prohibitive, as it is impossible to take the grades at the low speed.

Those who have autos for hire also advance the objection that if they are not allowed their pairons raise objections that they are not going fast enough and are trying to defraud them.

In view of all these aspects of the case the motor men take serious objection to the crusade against them. They may probably take steps to bring the matter before the legislature in the hope of having the law altered at the next session of the legislature, so that at least 15 miles may be the limit in cities.

#### AUTOMOBILE CASE IN POLICE COURT

#### C. P. R. Steamship Hauled Out Joseph Watcher is Fighting Conviction for Exceeding Speed Limit.

Over an hour was taken up in the p lice court this morning with the case of Joseph Watcher, charged with driving an automobile at a greater rate of speed than the law allows, and it was not settled then, being remanded until to-morrow to give the magistrate time to consider a technical point raised by Mr. Lowe, who appeared for the defence. The point was that the prosecution had not shown that the city had not passed a by-law allowing automobilists to test their machines on the causeway, as the statute gave them the right to do in connection with any street they might name. Mr. Moore, for the prosecution argued that it rested upon Mr. Lowe to show that the city had passed such a by-law and the magistrate enlarged the case to give him time to look into the authorities advanced by Mr. Lowe.

The first witness in the case was Constable Vic. Heather, who swore that on Saturday afternoon last he had timed Mr. Watcher crossing the causeway and he had made the distance in 26 seconds.

Mr. Lowe cross-examined Constable Heather at great length, especially as to where he had been standing when doing the timing and whether he had moved around, etc. After a while Constable Heather became somewhat net-tled and replied to one of Mr. Lowe's questions: "Don't you understanding

Mr. Lowe wanted Constable Heathe to figure out the exact time at which Mr. Watcher was travelling if he crossed the causeway in 26 seconds, to which the constable gently but firmly replied:

"I will not."

Constable Macdonald gave evidence as to having assisted Constable Heather in timing Mr. Watcher across the causeway, and was cross-examined at ength.

John S. Adams, assistant city engi-

John S. Adams, assistant city engineer, swore that the distance that the constables had sworn the automobile in question had travelled in the 26 seconds was 770 feet, which would mean, a speed of about 20 miles an hour.

Mr. Lowe, however, had another objection ready. In the statute governing the speed of automobiles the city was given the right to pass a by-law setting off portions of streets where automobiles might be tested at a greater rate of speed than ten miles an hour. er rate of speed than ten miles an hou.

The prosecution had not shown the city had not passed such a by-lassetting the causeway apart for the purpose. In support of his argume Mr. Lowe quoted a number of authorities.

#### Five Drunks and a Number of Other Cases Take Up Time of the Magistrate.

There were ten cases down for hearing in the police court this morning, only five of which, however, all charges of drunk-enness, were disposed of by the time court rose at 12.30. Besides that there was a pro-9. Vict.

The bachelors dance was a most auspicious affair, and great trouble and pains had been taken to make it a success. Those in attendance were arrayed in correct evening dress, and a good orchestra was pressed into service for the occasion which wound up a most successful celebration in splendid style, and was loudly praised by those in attendance.

The next man admitted the charge, but offered no explanation. He was followed by a sailor who explained that he had been paid off from the Charmer yesterday and had taken a glass too much of beer. The next, an old man, when given his chance to plead, replied: "I was just moving home when arrested. I had been drunk before."

"Were you drunk?" returned the magistrate.

"Were you drunk?" returned the magistrate.
"I really can't tell," was the reply.
"I fine you \$3," said the magistrate.
The man who followed admitted the charge against him. The last of the list of drunks when asked to plead replied:
"Yes, I was good and drunk, like a whole lot more." His fine was \$4, as he had Journeyed to the police station in the patrol wagon.
Vincent Waddell was charged with being a frequenter of a house of prostitution. When the case was called R. C. Lowe, who appeared for Waddell, asked that the case be remanded as he had only come into the case this morning and had not yet been instructed. He desired that in the meantime his client be allowed out-

not yet been instructed. He desired that in the meantime his client be allowed out on bail.

Mr. Moore said the police were anxious that no bail be given in this case, and Chief Langley added a request that Waddell be remanded until to-morrow without bail.

This the magistrate agreed to, when Mr. Moore asked that cash bail be not accepted, but that the bail should be in sureties. This was an exceptional case, he said, and the police did not want to take any chance of the man getting away without being tried.

The magistrate said be would fix the bail at two sureties of \$250 each, and Waddell himself in a bond of \$500. He refused Mr. Lowe's request that \$500 cash bail be accepted.

The charge against W. W. Gibson of exceeding the speed limit with his automobile was remanded until Saturday at the request of J. Al Alkman, who appeared for Gibson. The case against Richard Wood similarly charged was enlarged until to-morrow.

Mr. Lowe asked how about the release

Richard French appeared in court to answer a charge of having-broken into the Thorold apartments, over the new Empress theatre, last night, but the owner of the place did not appear and the case was not proceeded with. From the story told the police it appears that the place is locked up at 11 o'clock each evening. French was late coming home last night and found the door locked, when he broke it in and went to sleep on the bottom step of the stairs, where he was arrested by the police at the request of the owner of the place.

CITY BUILT UP BY GOOD ADVERTISING

The Results of Publicity Campaign is Creating Centre.

Ocean City, as its name indicates, is a maritime settlement, and is one of the progressive seaside resorts with which portant link in the chain of cities on the portant link in the chain of cities on the Jersey coast, that will presently have the shore metropolitanized from Cape May to Sandy Hook. It is not a dream to regard the Jersey shore as the home of a community stretching, in unbroken density, over 150 miles of beach, with graded streets, electric lights, water and every other civic convenience. It is, in fact, fairly on the way to realization even now. Cape May, Holly Beach, Sea Isle City, Ocean City, Atlantic City, Brigantine, Barnegat, Beach Haven, Seagirt, Belmar, Ocean Grove, Asbury Park, Elberon, Long Branch and Seabright, are the places of mark, many of which.

bury Park, Elberon, Long Branch and Seabright, are the places of mark, many of which extend their limits into their neighbor, and nearly all of which are connected by that real chain of modern life—the trolly line.

These cities have grown up as individuals, but they are gradually becoming part of a whole metropolitan community, which will exceed, as indeed it already does, any other like community the world has ever known, embracing the largest number of people

munity the world has ever known, em-bracing the largest number of people ever assembled together in pursuit of health and pleasure. We might pause to regard this vast assemblage as a moral and aesthetic problem, if these aims were the only ones in view, but the business of pro-viding the means of health and pleasones in view, but the outsiness or pro-viding the means of health and pleas-ure is one of the most serious, and moreover it is concerned so intimately with the living subject of advertising. that it is a fit subject for consideration

first place, convenient to cosmopolitan life. There were no great natural advantages presented by the strip sandy island that defends the mainla It was an arid, low sandy shoref cut here and there by channels leading to the shallow interior bays that offered neither harbors nor ports for shipping. There was fishing and hunting along the beach, mosquitoes in clouds, good bathing in suppose bathing in summer, but no other at-traction. The enterprise of man has built it up into beautiful cities, redeem-ed the desert sands and created a splen-did and modern civilization; and this the has done largely by wise, sane and liberal advertising. liberal advertising, supported of course by kindred and associated enterprises. There is no finer nor better illustration of the value of advertising effered anywhere than is presented by this group of prosperous seaside cities. Nor is there any interest that more carefully preserves their methods of prosperity, by maintaining that publicity in an at-

by maintaining that publicity in an attractive and liberal form.

Ocean Grove stretches out over the upper half of seven miles of beach, and occupies half a dozen streets parallel with the sea front. Its population shifts with the seasons, but it has a permanent residential life of everal thousand, which in summer time springs to such features exist over thousand, which in summer time springs to such figures as 15,000, or ever springs to such figures as 15,000, or even 20,000, persons, who are in no sense excursionists nor trippers, but people spending a real vacation, measured in weeks. There is a considerable hotel life, but the most of the population of Ocean City is the cottage life, which fact gives grounds for an estimate of the character and class of people

Incidentally, Ocean City and the other resorts can say little of special recom-mendation for themselves that the railmendation for themselves that the rail-way companies have not said extremely well. But they make a strong bid for popularity, with their cottages and bungalows, furnished and unfurnished, in wide selections, with handsome frontages on the sea and bay, yacht clubs, board walks, trolleys, ocean piers, safe boating, and all the inducements that are thrown out so attractively to summer and winter and vacation visit-ors.

CITY PROPERTY IS CHANGING HANDS

There is a Steady Demand for Real Estate in Victoria.

visited this morning by a Times representative but most of the agents were so busy that only in one or two offices could information be secured as to the number of sales being made. At two or three places the cash was on the counter, showing that business was being put through, while in others several customers were waiting to be attended

Matson & Coles report that there is a good bit of genuine business being done. People are buying who want to use the properties, but there is very little speculative buying going on.

Bond & Clark have been selling building lots whether the control of the contr

for building.

McConnell & Taylor are as usual keeping things moving. Last Saturday they sold a four thousand dollar house to a new arrival who was much pleased with James Bay, and decided to locate there. A couple of lots in Wilmot Place were also negotiated by this firm as well as a number of Alberni lots.

George Robson of the Hudson Bay Company, bought an are recently on Head street for the purpose of erecting a residence for himself. It is a nice property, an ideal spot for a home. The price is said to have been in the neighborhood of \$2,500, Matson & Coles being the brokers who put through the deal.

borhood of \$2,500, Matson & Coles being the brokers who put through the deal. Bullding still goes merrily on. Last month the permits in the city amounted to about eighty thousand dollars, the larger part of it being for small residences. At Oak Bay new houses are still being built. The foundation for one is just being laid on Byron street and three others will be built right alongside of it at once.

The outlook for the autumn is very promising. Every day most encouraging reports come across from the prairies as to the state of the crops. Even if there should be no more rain there will be big crops and the result will be that all those who have bought here on time will be enabled to meet their payments. Hundreds of farmers and business people from the prairies will sell out and come to Victoria as soon as they handle the cash for the fall crop. Main Route.

MAY BE TRAFFIC POINT

Revelstoke, B. C., June 1 .- A great leal of interest is being aroused this city over the likelihood of the Big Revelstoke to the scene of the Grand Trunk Pacific railroad construction and Tete Jaune Cache being chosen as the best route for the transportation of supplies for contractors. Already the construction of the interior sections of the G. T. P. have been visitors to Reveistoke, and have men now in the north reporting on the feasibility of the Reveistoke route north for supplies for construction work. So far they are

well pleased with it. Revelstoke is 180 miles from the G. T. P. route, 140 miles of this being navigable water, leaving only about 40 miles of wagon road to be built. The board of trade is interesting itself and board of trade is interesting itself and the provincial government has prom-ised assistance as soon as it will be needed to help in the construction of roads, etc. A deputation consisting of G. S. McCarter and A. McRae will visit the wholesale merchants at Vancouver to solicit their support in making the

scheme a provincial one.
The Columbia river with the excep-The Columbia river with the excep-tion of three miles, is navigable to the mouth of the Canoe river, which itself is navigable for about 40 miles. The steamer Revelstoke makes tri-weekly trips from here for 45 miles up the river to a good landing. There is no doubt that this will be the supply route for the whole of the interior construc-tion of the G. T. R. owing to the near-ness of route. A party of six men have been north of Revelstoke for a month inspecting the route, and are expected to return any day with favorable re-

ager. It is the intention of the board to make the exhibition of produce and fruit thoroughly representative of the district and indicative of its potentialities. The live stock men will be encouraged to prepare good exhibits for the fair, and the prize list will be revised with this object in view. The matter of attractions will be looked after by an energetic committee, who will see to it that this branch of the exhibition will be such as will bring people from outside points. The racing committee will be appointed with a view to securing men who will have committee will be appointed with a view to securing men who will have the best interests of the "sport of kings" at heart, and a programme will be arranged which will attract an unusually large number of the best horses in the west. Lovers of the racing game can rest assured that the two days' meet will furnish the best of sport for both participants and spectators. The track, already one of the best appointed in the west, will be considerably improved and fast going will be assured.

NELSON DROWNING FATALITY.

Nelson, June 2.—James William Tuliett, a 14-year-old English boy, living at C. W. Eusk's ranch to the east of Nelson, disobeyed orders and went out paddling on a couple of logs, having first taken off all his clothes. He was hunted for and finally his clothes were found telling the tale of his drowning. The body has not yet been recovered. The boy, who was one of a number of English lads living on Busk's ranch, only recently came here from Blindley Heath, near Godstone, Surrey.

DISASTER AVERTED. Fire in South Vancouver Threatend to Assume Large Proportions.

Vancouver, June 2—A fire threatening to assume dangerous proportions
broke out yesterday afternoon in the
settlement in South Vancouver, Just
south of the city boundary. Starting
from some unknown cause in the residence of Mr. Black on Twentieth street,
between Westminster avenue and Ontario street, it entirely consumed the
building, extended to the adjoining
residence, belonging to Mr. Gray, and
burning it to the ground, and then attacking still a third house near by,

New Westminster, June 2.—Within a year New Westminster will have a rival gas company, and gas at about half the rates charged by the present company, unless something unforeseen occurs. The by-law embodying the agreement between the city and the Royal City Gas Improvement Company which proposes entering the local field, passed its second reading last night after being considered clause by clause. The by-law will likely be finally passed at the next meeting. The by-law as passed last night was practically the same as that passed at the last meeting except that the company agreed in addition to what had already been passed that they would put up a bond of \$10,000, and that none but white labor should be employed. but white labor should be employed.

LAMBS FOR CHILIWACK.

Vancouver, June 2.—The steamer Iroquois yesterday brought up from Seattle 988 California sheep, consigned to Clements & Horst, of Chilliwack. They are yearling lambs, and will be turned loose over the 600 or 700 acres of hop fields owned by the firm. These sheep eat all the weeds through the hopfields and save ploughing. They were all dipped and in good condition.

engaged at Great Central lake.

On Tuesday last A. H. Lyche, J. P., of Ucluelet, arrived by launch from that place, and left early next day by motor car for Nanaimo en route to Victoria, where he had been summoned owing to the serious illness of his eldest daughter who has been attending the high school there.

Last week Mrs. Godson, wife of the accountant of the Pacific cable station at Banfield, arrived with her little baby, who had fallen off a verandah and broken a small bone in her arm. The injury was attended to by Dr. Morgan.

Many men are exceptions, and very often a doubt is expressed with an accompanying acceptance of a general rule. The Semi-ready idea in talloring was given to the world before it was perfect. It was conceived by a genius, and carried to success by practical men. Half a hundred men claim the first conception.

Often is heard the doubt expressed in these words: "Yes, there's something in it, but Semi-ready can't fit me; I'm an exception." There is a test, and it has never failed. Each Semi-ready store, in addition to a well-assorted stock of garments made on the physique type system that fits 99 men in a thousand, has some 200 cloth samples. Suits are made to measure in four days, and the Semi-ready Company guarantee as perfect it and better tailoring than a custom tailor can possibly offer. The saving of \$10 is worth while, too.

FINDS "NOAH'S ARK" ON ALASKAN HILL

The B. C. golf championship games are still proceeding. The links are delightful just at this time of year and the result is that a good many of the club members go out every afternoon and evening.

The results to hand so far have not been of a sensational character except for the games between G. K. Prior and County of Character in which the latter Discovery Shorn of Interest J. W. Weart Was Given a Prac-Because Casey Moran Got in First.

was beaten on the twentieth hole. Gillesple was the runner up for the Northwest Pacific championship during the recent big tournament and he played an excellent game against Prior, who is a veteran, while Gillesple is quite young at the game. The following is the list of games played up to date. Prior beat Gillesple on 10th hole. Birch beat D. R. Irving, 1 up. Cookson beat Futcher, 1 up. Mrs. Burton beat Mrs. Holland, 2 up and 1 to play.

What was, in its time, the most sensational and cleverly constructed newspaper "Take," out of all the hundreds that netted money for enterprising and imaginative scribes in the days of the Alaska rush, is recalled by the arrival of N. J. Brown with a story of finding a huge eraft on a high hill above the Chandlar river.

Few years ago Casey Moran's tale of the discovery of "Noah's Ark" in the district referred to, was, with multitudinous embellishments, peculiar to the enterprising, if not absolutely veracious, journalism of that time in the Yukon, circulated through a large portion of the American press with no little success, inasmuch as the weird descriptive narratives which grew out of it convinced many credulous persons that it was the original boathouse of the Biblical story.

Brown, who "mushed" into Dawson from the country above Chandlar river head-waters recently, tells of coming upon a gigantic craft 100 yards long, of immense beam and covered with a house one-story in height, which measured over 12 feet to the eaves. Upon the walls of this strange argosy were inscribed character of an unique type, among which, so Brown declares, were some letters of the Russian alphabet, The "Ark," which is undoubtedly the original figure of Casey Moran's sensational tale, was found by Brown on a high hill overlooking a string of lakes some 30 odd miles above the headwaters of the Chandlar river. The Indians in the neighborhood have used the place as a residence and as a storage place for the fish which they catch in the lakes, making it a general rendevous,

the place as a residence and as a stortage place for the fish which they catch in the lakes, making it a general rendevous.

Brown, as befits a discover with such a common-place name, is not possessed of the imagination and ingenious powers of narration which characterised the Irishman who first unearthed, whether through personal experience or vague rumor, the curious vessel. He advances the very prosaic and practical idea that the so-called "Ark" is nothing more than a floating fortress used by the Russians or their predecessors in Alaska, and left stranded, high above the present water-mark by some physical transmogrification of the vicinity in which it has been found, and in which, it is reasonable to suppose from its great bulk and general unweildiness, it was put together.

My ankle. Why in Vancouver where there is—well—plenty of moisture the potatoes are only a few in-ches high and you know you can't do things here as well—plant of the hack of the hands of the visitor, a yard stick in close vicinity and a look of triumph on the face of the doctor which was an exact replica of that on the face of Wellington at Waterloo just after the guards had finished the days work. Thirty-six inches from tune to blossom, and a Murphy at the foot that would have made a meal for two men or a lunch for a boy!

Mr. Weart has been seeking ever since for a lot with a nice back garden on Dallas road.
